DETAILED ACTION

Claim Objections

1. Claims 1-9 are objected to because of the following informalities:

Claim 1, line 2, after "structure including" a colon --: -- needs to be inserted.

Claim 1, line 4, after "representing signal amplitude" replace ",", with -- ; --.

Claim 1, line 7, after "said training method" the word -- further -- needs to be inserted.

Claim 2, line 2, after "second look-up table is set to", the word "the", should be amended to recite -- a --.

Claim 3, line (b) 1, after "first look-up table is set to", the word "the", should be amended to recite -- a --.

Claim 6, line 2, after "structure including" a colon --: -- needs to be inserted.

Claim 6, line 4, after "representing signal amplitude" replace ",", with -- ; --.

Claim 7, line 2, after "second look-up table is set to", the word "the", should be amended to recite -- a --.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 5, is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 5 recite the limitation "the determining and refining steps" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 5, line 2 recites the limitation "the same algebraic form". There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

4. Claims 1-9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, and the claim objections set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
